SUMMARY

Full-stack developer and AI generalist with a strong IoT background, exploring intelligent systems and scalable applications. Proficient in React, Node.js, MySQL, Arduino, and AI-driven solutions. Skilled in building responsive web applications and implementing AI-driven automation workflows.

EDUCATION

2023 - Present Bachelor's Degree in CSE (IoT) at Noida Institute Of Engineering and Technology
2023 Class 12th - CBSE
2021 Class 10th CBSE

PROJECTS

Whatsapp Automation Agent

Building an end-to-end WhatsApp AI agent for a self-drive car rental company which autonomously handles bookings, availability checks, modifications, and cancellations and integration of google sheets to store and perform operations

RestroFlow - Contactless Dining & Smart POS Console

Developed a premium component-based restaurant billing terminal and QR-ordering platform with React.js frontend and Node.js backend, featuring real-time kitchen syncing and deficit-based inventory auto-restocking.

Easy-Pay

An AI-powered Progressive Web App that enables customers to self-checkout via barcode scanning and QR-based billing, reducing queue times by up to 80% and enhancing convenience. The system also benefits users by providing real-time health analysis of food products, offering personalized scores and healthier alternatives based on individual conditions.

Streak Forge

StreakForge is a habit tracking and productivity web application built using AI Build Studio, featuring streak tracking, focus sessions, progress insights, and Firebase-powered real-time updates.

COURSES AND CERTIFICATION

- AI BOOTCAMP** Gained hands-on experience in prompt engineering, leveraging AI models, generative content creation, and building automated workflows with email integration.
- GOOGLE EXCHANGE AI PROGRAM** Gained practical expertise in building and deploying AI models

TECHNICAL AND PROFESSIONAL SKILLS

Programming Languages: C++, Python, JavaScript

Web Technologies: React.js, Node.js, Express.js, Tailwind CSS

Automation & AI Tools: Make.com, n8n, OpenRouter

Database: MySQL, MongoDB, Google Sheets

Tools and Platforms: Git, GitHub, VSCode, Antigravity, Stitch

Soft Skills: Communication, Leadership, Team Coordination, Problem-Solving, Quick Learner

Co-curricular: Coding Event Coordinator, Cultural Event Leadership
